

SOCIALISM AS
AN ALTERNATIVEPresident Taft Stoutly Defends
Anti-Trust Law.

LITTLETON ATTACKS STATUTE

New York Congressman at Pittsburg
Banquet Urges Repeal of Sherman
Enactment and Chief Executive
Comes to the Defense—Stifling of
Competition and Control of Prices
Must Cease.Pittsburg, Nov. 1.—President Taft
defended the Sherman anti-trust law
in answer to an address made by Con-
gressman Martin W. Littleton of New
York, who attacked provisions of the
law at a banquet of the Pittsburg
chamber of commerce."This question has been eloquently
considered by my friend Littleton,"
said Mr. Taft, "and I regret the matter
as come up here. It savors of harsh-
ness to have a difference of opinion on
a question of this kind. But I must
say what I think."The Sherman law has been on the
statute books for twenty years and
has been construed, and construed and
construed, and finally by the supreme
court. The two decisions last spring,
in my judgment, give it definite mean-
ing that any combination in restraint
of trade with the purpose of controlling
prices and stifling competition is a vi-
olation of the statute. Men know
whether they intend to stifle competi-
tion and control prices and all that is
necessary in a court of law is to prove
the combination and the intent. That
is all that is needed for the enforce-
ment of any criminal statute.

Law Can Be Enforced.

"It is not pleasant to be engaged in
what may seem to be an assault on
business, but business men thought
his law could not be enforced. Now
the law can and is being enforced and
because of this we hear that it is to
be repealed."I would cut my hand off before I
would injure business. But what has
my dear friend Littleton to offer?
Only one course is open. Either we
will have individualism or we will
have combinations in restraint of
trade going to that point where the
people will demand that the power of
men engaged in such corporations be
transferred to the government. And
then we will have state socialism."Now we can disintegrate unlawful
corporations and put them under in-
junction. If they operate they must
compete."I know I am speaking against the
trend of many of you, but I cannot
help it. The law is on the statute
books and must be enforced and this
stifling of competition and this con-
trol of prices must cease."I didn't want to get into this dis-
cussion, but I want you business men
to face this problem."

Remarks Frequently Applauded.

There was frequent applause during
the president's remarks.Mr. Taft listened to the plea for the
repeal of the Sherman anti-trust act
by Congressman Martin W. Littleton
of New York, member of the special
house of representatives committee
that at the special session investi-
gated the United States Steel cor-
poration.Mr. Littleton quoted both former
President Roosevelt and Mr. Taft as
saying at one time or another being
willing to have the Sherman law
unmended."It seems clear to me," said Mr.
Littleton, "that the Sherman law can-
not possibly be made effective in the
exterminating of the real evil with-
out carrying with it too large a sac-
rifice of the whole industrial fabric
and that it should be absolutely re-
pealed and a new policy or scheme of
legislation inaugurated."As a solution of the problem Mr.
Littleton suggested that every cor-
poration, before it entered interstate
business, be required to submit its
incorporation and its true condition
to a board created for that purpose,
and to obtain a license to do inter-
state business.

PLANS INVASION OF SOUTH

Taft's Friends Unmoved by Move of
La Follette Men.Chicago, Nov. 1.—News came to the
Taft headquarters here that the La
Follette boomers were planning an in-
vasion of the South, but little fear was
expressed that the Wisconsin senator
might make any real trouble in that
section. In New England much will
depend upon next week's elections.New York is giving the Taft leaders
much worry, but they feel that unless
former President Roosevelt comes out
into the open as an opponent of the
president the Taft cause is sure to get
the solid delegation from that state.

REPORTS ITALIAN REVERSE

Dispatches to Turkish Officials at
Washington From Constantinople
Say That Italians Had Been Forced
From One Position With Heavy
Losses, Leaving Behind Ammunition
and Other Supplies.Washington, Nov. 1.—The recapture
of Tripoli by the Turks seems immin-
ent to officials of the Turkish embas-
sy here, in the light of official advices
from Constantinople. The dispatch
states that an attack was made on
Fort Seye-Misri-Ep-Henni and that the
Italians had evacuated the place, leav-
ing behind a great quantity of ammu-
nition and other supplies.The losses of the Italians are re-
ported to be enormous, while the
Turks are said to have lost forty
killed and about 100 wounded. The
Turkish forces, reinforced by volun-
teers, first advanced upon Tripoli on
the night of Oct. 25, breaking the
lines of the Italians at different
points. This attack lasted until 4
o'clock the next morning, when the
Italians retreated to a remote cor-
ner of the town.Tripoli, Nov. 1.—Arab forces, sup-
ported by a battery of Turkish artil-
lery, advanced into a grove to the
east of Tripoli city and occupied two
abandoned forts. From there they
dropped a few shells into the town,
but their guns were soon silenced by
the Italians, who succeeded in cap-
turing four pieces.

VOTE IN FAVOR OF STRIKE

Shop Employees of Rock Island Road
May Go Out.Chicago, Nov. 1.—The strike vote,
taken recently among the employees of
the Chicago, Rock Island and Pacific
railway, was in favor of a strike, offi-
cials of the road were informed by a
committee representing the workers.A conference was asked looking to a
settlement of the difficulty, but be-
cause of the absence from Chicago of
some railroad officials the conference
cannot be held until next week.John Duff, representing the black-
smith division of the system federa-
tion, and H. J. Carr, secretary of the
machinist division, brought news of
the result of the vote to the railroad
officials. When informed the Rock
Island officials were away from the
city they announced they would be
back next week for a conference.Wage increases, approximately of 10
per cent, and restoration of the union
shop rule, will be insisted upon at the
conference, declared the employees.

KEEP A STRING ON IRELAND

Old Age Pensions as Alternative for
Subsidy in Home Rule Plan.London, Nov. 1.—The Irish home
rule scheme, which has been under
secret preparation for some time, was
discussed by the cabinet, it is be-
lieved, for the first time. The theory
has been current that the imperial
parliament will be asked to launch
the Irish government with a subsidy
estimated at from \$75,000,000 to \$150,
000,000.An alternative suggested in place of
a lump grant is that the government
maintain some item of Irish expense.
Old age pensions principally are men-
tioned.The best opinion is that the imperial
parliament will keep control of Irish
customs and excise, thus insuring a
general system for the United King-
dom and preventing Ireland from rais-
ing a protective wall against England,
as the large colonies have done.

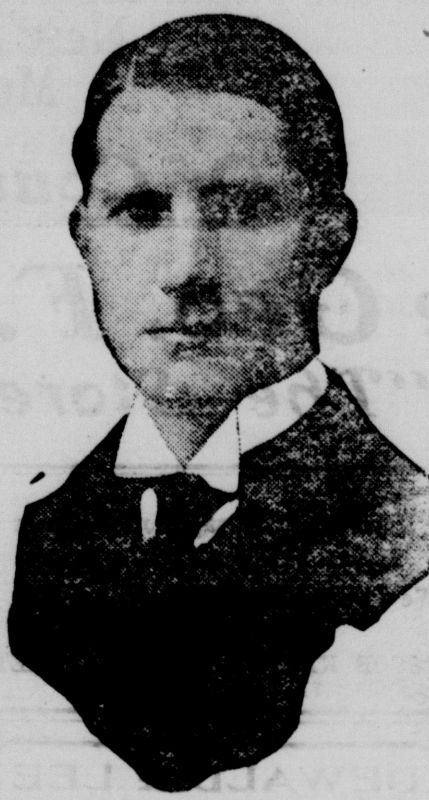

RESULT OF FACTORY FIRE

Triangle Waist Men Must Face Man-
slaughter Charges.New York, Nov. 1.—Isaac Harris
and Max Blanck, proprietors of the
Triangle Waist company, the fire in
whose lofts on March 25 resulted in
the loss of 143 lives, will go to trial
under indictments of manslaughter in
the first degree.Judge O'Sullivan, in the court of
general sessions, disallowed demur-
rers to seven indictments against
them. It is not likely that the trial
will start for some weeks.

stead association, voiced in resolutions
prepared by Mrs. Charlotte Smith, the
100,000 or more spinsters in Massachu-
setts have voiced themselves against
the candidacy of Lieutenant Governor
Louis A. Frothingham for governor.
No party affiliations or other reason
given for their drastic condemnation
no attention being given to a sugges-
tion that he might some day fore-
go bachelordom.In the resolutions bachelors are de-
nounced as failures and useless to so-
ciety and finally men are urged to vote
against all bachelor candidates, re-
gardless of party.DEPARTMENT NOW
PRODUCES PROFITSurplus in Postoffice for First
Time Since 1883.Washington, Nov. 1.—For the first
time since 1883 the postoffice depart-
ment, during the fiscal year ended
June 30, 1911, was conducted at a
profit. In twenty-four months the con-
duct of the postal service has resulted
in changing a deficit of \$17,479,770 for
the fiscal year 1909 to a surplus of
\$219,118 for the fiscal year 1911. Dur-
ing the last fiscal year the audited
revenues of the department were
\$237,879,823 and the audited expendi-
tures \$237,648,925.These facts are detailed in a report
of Charles A. Kram, auditor for the
postoffice department, in a report sub-
mitted to Postmaster General Hitch-
cock.During the fiscal year \$1,906,025
mestie money orders were issued, ag-
gregating \$590,034,432, and 4,060,413
international money orders were is-
sued, aggregating \$96,681,211.A large amount of money is avail-
able for the postoffice department, the
report showing that more than \$2,000,
000 is held by the treasurer of the
United States and assistant treasurers
for the use of the postal service and
that more than \$6,400,000 is similarly
held for the use of the money order
service.

BILL FOR FEDERAL CONTROL

Berger Would Have Congress Repeal
Sherman Anti-trust Act.Milwaukee, Nov. 1.—Congressman
Victor L. Berger will introduce a bill
at the next session of congress to re-
peal the Sherman anti-trust act and
substitute a law providing that where-
ever a pool, a combine or a trust con-
trols over 60 per cent of the total out-
put in any industry the government
shall take the concern over, pay the
actual value in bonds and manage
the business for the benefit of all the
people.Modern business cannot be made
to conform to the Sherman act and ex-
ist," says Congressman Berger. "The
trusts spell progress and are a tremen-
dous benefit to their owners.
What we must do, therefore, is to ex-
tend the benefits of this ownership to
the entire nation. That will be the
object of my bill."

COUNTRY" MOVESA Mythical Region That Is Con-
stantly Shifting.

IS IT STILL IN NEW YORK?

The Metropolis Hostile to Both Taft
and Wilson—Theoretical and Prac-
tical Farmers—How to See a Bear to
Best Advantage—A National High-
way Across the Continent.By ARTHUR W. DUNN.
Washington, Nov. 1.—[Special.]—
Where is the "enemy's country?" It
will take a great many doctors of pol-
itics to tell us just how to locate that
undefined region which Mr. Bryan cre-
ated in 1896. He called the east "the
enemy's country" when he was about
to enter that section on a speech mak-
ing tour.When President Taft set out on his
record breaking "swing around the
circle" it was said that he was going
into the "enemy's country," the gen-
eral opinion then being that the west
was hostile to him. But it may be
surmised from all reports that "little
old New York" is rather a hostile
region just now, and if the president
were seeking the "enemy's country" he
might find it on Manhattan Island.

Governor Wilson Also.

And if those men who are booming
Governor Wilson in New Jersey will
cross the Hudson river or, like the
early Dutch settlers, go from Man-
hatten to Manhattan they will find an
"enemy's country" for the governor.
The fellow who carries a few days in
New York is convinced that the Re-
publicans do not want Taft and the
Democrats do not want Wilson."The first choice of the Democrats
in New York is Governor Harmon,"
said a returned visitor, "but they will
not vote for him on the first ballot or
perhaps several ballots. New York
will be for Harmon when it will do
him the most good. Until then the
delegation will vote for Governor Dix."

The Farmer Knows.

Professor W. J. Spillman, chief of
the United States bureau of farm man-
agement, says that by hard knocks he
has learned that American farmers fre-
quently are in a position to tell a thing
or two to the so called "book learn-
ing" agriculturists, who, in the narrowness
of their specialities, go out from ex-
periment station laboratories to show
the farmers how to farm."Very few things are 'discovered' in
laboratories or on experimental farms,"
Professor Spillman declares, "which
some farmer somewhere in the United
States has not known and used for
years. It therefore behooves the sci-
entist who truly desires to help all the
farmers of the country to go out among
the progressive farmers of every state
and mingle intimately with them, gat-
hering here and there from their ex-
periences information which, publish-
ed, would greatly benefit the whole
farming community."

Where a Grizzly Looks Big.

"It is remarkable how enormous a
bear will look 'in the free state,'" re-
minded Dr. Joseph A. Holmes, chief of
the United States bureau of mines. "I
often have strolled through the Na-
tional Zoological park on Sundays and
stopped to admire the magnificent
specimens of Alaska grizzly, wonder-
ing if such large animals were com-
mon in the territory. It seemed that
they could hardly be. But an experi-
ence in Alaska this summer 'showed
me.'""One morning, feeling that I should
relish some berries, I got some of the
members of our party to walk with me
a little distance from camp to get
them. We had gathered quite a few
when we saw at a little distance a she-
bear, also a-berrying, with her two
cubs. Scouting us, the cubs, frighten-
ed, ran in diverse directions. The
mother, alarmed, curled her lip and
made for me in a way not conducive
to my nervous composure. Not a tree
was in sight. And that bear grew—
my, how she did grow! Within 100
feet of me she suddenly changed her
mind and turned away toward her
cubs, much to my relief."

Cartoon Ineffective.

The fellow who attempts to cartoon
Senator La Follette with a hat on falls
down. The Wisconsin man's pompa-
dour hair is too well known to be left
out of any picture, especially a car-
toon. Hair and whiskers are usually
the cartoonists' long suit.

Dixon's Latch String Out.

The little labels on the doors of sen-
ators in the office building are so small
and the letters so indistinct that they
can scarcely be deciphered. But Sen-
ator Dixon has done a real good thing
for those seeking him and other sen-
ators might well follow his example.
Upon the door of the Montana senator
is a large card with bold letters:
"Room 420—Senator Dixon—Walk In."

Only \$125,000,000.

Some mathematicians have figured out
that it will only cost \$125,000,000 to
build a highway from the Atlantic to
the Pacific. The figures don't have
any significance to those who do not
know or care what three or more ad-
ditional ciphers mean after the thou-
sand point is reached, but the question
is, Who wants a national highway
across the continent, more especially
through the long reaches of dry plains
and mountains?

UNDER ADVISEMENTDecision on Tobacco Reorgan-
ization Expected Soon.New York, Nov. 1.—The end has
been reached in the arguments which
have been made for the last two days
before the United States circuit court
for and against the plan of dissolu-
tion filed by the American Tobacco
company. Judges Lacombe, Noyes,
Coxe and Ward took the case under
advisement. A decree is expected
within a few days, determining whether
the much discussed plan is in ac-
cordance with the decision of the su-
preme court of the United States,
which held the American Tobacco
company to be an illegal combination
in restraint of trade and ordered that
the trust be disintegrated so as to re-
store competition in the tobacco in-
dustry.Interest in the argument centered
chiefly in the attitude of Attorney
General Wickersham, who stated that
he approved generally of the plan, but
at the same time made recommenda-
tions which met vigorous protest on
the part of the stock and bondholders
of the American Tobacco company.Mr. Wickersham insisted that the
court, by injunction to prevail from
three to five years, reserve to the
government the right to appeal to the
court at any time it should appear
that the dissolution of the trust had
not resulted in conditions in harmony
with the anti-trust law.

FEW MAY RETAIN SEATS

Nine Men Now on Jury in the Mc-
Namara Case.Los Angeles, Cal., Nov. 1.—Three
more talesmen are needed to fill the
jury box in the James B. McNamara
murder trial before opposing counsel
begin exercising their peremptory
challenges. Five of the nine accepted,
so far as challenge for cause is con-
cerned, have been chosen in a day
and a half.With twenty peremptory challenges
at the disposal of the defense and ten
in the hands of the state it is consid-
ered unlikely that more than three
will be on the final jury.If all the thirty peremptory chal-
lenges allowed by law are used,
which seems likely, they will empty a
full jury box with eighteen left over
and after these are exhausted a final
twelve men will have to be selected,
impervious to challenge for cause.
The completion of a jury therefore is
considered a matter of weeks.

SOCIALISM AS AN ALTERNATIVE

President Taft Stoutly Defends Anti-Trust Law.

LITTLETON ATTACKS STATUTE

New York Congressman at Pittsburg Banquet Urges Repeal of Sherman Enactment and Chief Executive Comes to the Defense—Stifling of Competition and Control of Prices Must Cease.

Pittsburg, Nov. 1.—President Taft defended the Sherman anti-trust law in answer to an address made by Congressman Martin W. Littleton of New York, who attacked provisions of the law at a banquet of the Pittsburg chamber of commerce.

"This question has been eloquently considered by my friend Littleton," said Mr. Taft, "and I regret the matter as come up here. It savors of harshness to have a difference of opinion on a question of this kind. But I must say what I think.

"The Sherman law has been on the statute books for twenty years and as been construed, and construed and construed, and finally by the supreme court. The two decisions last spring, in my judgment, give it definite meaning that any combination in restraint of trade with the purpose of controlling prices and stifling competition is a violation of the statute. Men know whether they intend to stifle competition and control prices and all that is necessary in a court of law is to prove the combination and the intent. That is all that is needed for the enforcement of any criminal statute.

Law Can Be Enforced. "It is not pleasant to be engaged in what may seem to be an assault on business, but business men thought his law could not be enforced. Now the law can and is being enforced and because of this we hear that it is to be repealed.

"I would cut my hand off before I would injure business. But what has my dear friend Littleton to offer? Only one course is open. Either we will have individualism or we will have combinations in restraint of trade going to that point where the people will demand that the power of men engaged in such corporations be transferred to the government. And then we will have state socialism.

"Now we can disintegrate unlawful corporations and put them under injunction. If they operate they must compete.

"I know I am speaking against the trend of many of you, but I cannot help it. The law is on the statute books and must be enforced and this stifling of competition and this control of prices must cease.

"I didn't want to get into this discussion, but I want you business men to face this problem."

Remarks Frequently Applauded. There was frequent applause during the president's remarks. Mr. Taft listened to the plea for the repeal of the Sherman anti-trust law by Congressman Martin W. Littleton of New York, member of the special house of representatives committee that at the special session investigated the United States Steel corporation.

Mr. Littleton quoted both former President Roosevelt and Mr. Taft as having at one time or another been willing to have the Sherman law amended.

"It seems clear to me," said Mr. Littleton, "that the Sherman law cannot possibly be made effective in the exterminating of the real evil without carrying with it too large a sacrifice of the whole industrial fabric and that it should be absolutely repealed and a new policy or scheme of legislation inaugurated."

As a solution of the problem Mr. Littleton suggested that every corporation, before it entered interstate business, be required to submit its incorporation and its true condition to a board created for that purpose, and to obtain a license to do interstate business.

PLANS INVASION OF SOUTH

Taft's Friends Unmoved by Move of La Follette Men.

Chicago, Nov. 1.—News came to the Taft headquarters here that the La Follette boomers were planning an invasion of the South, but little fear was expressed that the Wisconsin senator might make any real trouble in that section. In New England much will depend upon next week's elections.

New York is giving the Taft leaders much worry, but they feel that unless former President Roosevelt comes out into the open as an opponent of the president the Taft cause is sure to get the solid delegation from that state.

Killed Crawling Through Fence. Boone, Ia., Nov. 1.—Reuben Meyer, a wealthy farmer, was killed while hunting near here. He was crawling through a fence when his shotgun was discharged, blowing off the top of his head.

Pulitzer Estate \$50,000,000.

New York, Nov. 1.—Bankers and business friends estimated the fortune left by Joseph Pulitzer of the New York World to be in the neighborhood of \$50,000,000 to \$60,000,000.

TURKEY SEEMS TO BE GAINING

Sultan's Forces Hope to Retake City of Tripoli.

REPORTS ITALIAN REVERSE

Dispatches to Turkish Officials at Washington From Constantinople Say That Italians Had Been Forced From One Position With Heavy Losses, Leaving Behind Ammunition and Other Supplies.

Washington, Nov. 1.—The recapture of Tripoli by the Turks seems imminent to officials of the Turkish embassy here, in the light of official advices from Constantinople. The dispatch states that an attack was made on Fort Seye-Misir-Ep-Henni and that the Italians had evacuated the place, leaving behind a great quantity of ammunition and other supplies.

The losses of the Italians are reported to be enormous, while the Turks are said to have lost forty killed and about 100 wounded. The Turkish forces, reinforced by volunteers, first advanced upon Tripoli on the night of Oct. 25, breaking the lines of the Italians at different points. This attack lasted until 4 o'clock the next morning, when the Italians retreated to a remote corner of the town.

Tripoli, Nov. 1.—Arab forces, supported by a battery of Turkish artillery, advanced into a grove to the east of Tripoli city and occupied two abandoned forts. From there they dropped a few shells into the town, but their guns were soon silenced by the Italians, who succeeded in capturing four pieces.

VOTE IN FAVOR OF STRIKE

Shop Employees of Rock Island Road May Go Out.

Chicago, Nov. 1.—The strike vote, taken recently among the employees of the Chicago, Rock Island and Pacific railway, was in favor of a strike, officials of the road were informed by a committee representing the workers. A conference was asked looking to a settlement of the difficulty, but because of the absence from Chicago of some railroad officials the conference cannot be held until next week.

John Duff, representing the blacksmith division, the system federation, and H. J. Carr, secretary of the machinist division, brought news of the result of the vote to the railroad officials. When informed the Rock Island officials were away from the city they announced they would be back next week for a conference.

Wage increases, approximately of 10 per cent, and restoration of the union shop rule, will be insisted upon at the conference, declared the employees.

KEEP A STRING ON IRELAND

Old Age Pensions as Alternative for Subsidy in Home Rule Plan.

London, Nov. 1.—The Irish home rule scheme, which has been under secret preparation for some time, was discussed by the cabinet, it is believed, for the first time. The theory has been current that the imperial parliament will be asked to launch the Irish government with a subsidy estimated at from \$75,000,000 to \$150,000,000.

An alternative suggested in place of a lump grant is that the government maintain some item of Irish expense. Old age pensions principally are mentioned.

The best opinion is that the imperial parliament will keep control of Irish customs and excise, thus insuring a general system for the United Kingdom and preventing Ireland from raising a protective wall against England, as the largest colonies have done.

RESULT OF FACTORY FIRE

Triangle Waist Men Must Face Manslaughter Charges.

New York, Nov. 1.—Isaac Harris and Max Blanck, proprietors of the Triangle Waist company, the fire in whose lofts on March 25 resulted in the loss of 143 lives, will go to trial under indictments of manslaughter in the first degree.

Judge O'Sullivan, in the court of general sessions, disallowed demurrers to seven indictments against them. It is not likely that the trial will start for some weeks.

ENDORSES WOMAN SUFFRAGE

National W. C. T. U. Convention Pledges Support.

Milwaukee, Nov. 1.—Woman suffrage was endorsed by the National W. C. T. U. convention in the following language:

"Because it is just, and believing that the best interest of humanity will be conserved and advanced by the ballot for women, we pledge ourselves to work for their enfranchisement on equal terms with men."

LOUIS A. FROTHINGHAM.

Bay State Women Oppose Him Because He Is Single.

BECAUSE HE IS A BACHELOR

Massachusetts Women Oppose Frothingham for Governor.

Boston, Nov. 1.—Answering the trumpet call of the Woman's Home stead association, voiced in resolutions prepared by Mrs. Charlotte Smith, the 100,000 or more spinsters in Massachusetts have voiced themselves against the candidacy of Lieutenant Governor Louis A. Frothingham for governor. No party affiliations or other reasons given for their drastic condemnation no attention being given to a suggestion that he might some day forego his bachelorhood.

In the resolutions bachelors are denounced as failures and useless to society and finally men are urged to vote against all bachelor candidates, regardless of party.

DEPARTMENT NOW PRODUCES PROFIT

Surplus in Postoffice for First Time Since 1883.

Washington, Nov. 1.—For the first time since 1883 the postoffice department, during the fiscal year ended June 30, 1911, was conducted at a profit. In twenty-four months the conduct of the postal service has resulted in changing a deficit of \$17,479,770 for the fiscal year 1909 to a surplus of \$219,118 for the fiscal year 1911. During the last fiscal year the audited revenues of the department were \$237,879,823 and the audited expenditures \$237,648,926.

These facts are detailed in a report of Charles A. Kram, auditor for the postoffice department, in a report submitted to Postmaster General Hitchcock.

During the fiscal year \$1,906,025 mastic money orders were issued, aggregating \$590,034,432, and 4,060,413 international money orders were issued, aggregating \$96,681,211.

A large amount of money is available for the postoffice department, the report showing that more than \$3,000,000 is held by the treasurer of the United States and assistant treasurers for the use of the postal service and that more than \$6,400,000 is similarly held for the use of the money order service.

BILL FOR FEDERAL CONTROL

Berger Would Have Congress Repeal Sherman Anti-Trust Act.

Milwaukee, Nov. 1.—Congressman Victor L. Berger will introduce a bill at the next session of congress to repeal the Sherman anti-trust act and substitute a law providing that wherever a pool, a combine or a trust controls over 60 per cent of the total output in any industry the government shall take the concern over, pay the actual value in bonds and manage the business for the benefit of all the people.

"Modern business cannot be made to conform to the Sherman act and exist," says Congressman Berger. "The trusts benefit progress and are a tremendous benefit to their owners. What we must do, therefore, is to extend the benefits of this ownership to the entire nation. That will be the object of my bill."

FROM PRIZE RING TO PULPIT

Eddie Young, Pugilist, Will Study to Become Evangelist.

San Francisco, Nov. 1.—Eddie Young of San Jose, a well known featherweight pugilist, has announced that he will enter the ministry and later become an evangelist.

"Religion needs men who can put a kick in it," said Young. "I'm there with the kick, and now you can sit back and watch me slip the devil some of the old sleep drops."

Young will address the Young Men's Christian association here Saturday afternoon. He will go to Chicago to study at the Moody Evangelical institute.

THE "ENEMY'S COUNTRY" MOVES

A Mythical Region That Is Constantly Shifting.

IS IT STILL IN NEW YORK?

The Metropolis Hostile to Both Taft and Wilson—Theoretical and Practical Farmers—How to See a Bear to Best Advantage—A National Highway Across the Continent.

By ARTHUR W. DUNN. Washington, Nov. 1.—[Special.]—Where is the "enemy's country?" It will take a great many doctors of politics to tell us just how to locate that undefined region which Mr. Bryan created in 1896. He called the east "the enemy's country" when he was about to enter that section on a speech making tour.

When President Taft set out on his record breaking "swing around the circle" it was said that he was going into the "enemy's country," the general opinion then being that the west was hostile to him. But it may be surmised from all reports that "little old New York" is rather a hostile region just now, and if the president were seeking the "enemy's country" he might find it on Manhattan Island.

Governor Wilson Also.

And if those men who are booming Governor Wilson in New Jersey will cross the Hudson river or, like the early Dutch settlers, go from Communipaw to Manhattan they will find an "enemy's country" for the governor. The fellow who carries a few days in New York is convinced that the Republicans do not want Taft and the Democrats do not want Wilson.

"The first choice of the Democrats in New York is Governor Harmon," said a returned visitor, "but they will not vote for him on the first ballot or perhaps several ballots. New York will be for Harmon when it will do him the most good. Until then the delegation will vote for Governor Dix."

The Farmer Knows.

Professor W. J. Spillman, chief of the United States bureau of farm management, says that by hard knocks he has learned that American farmers frequently are in a position to tell a thing or two to the so called "book learn" agriculturists, who, in the narrowness of their specialities, go out from experiment station laboratories to show the farmers how to farm.

"Very few things are 'discovered' in laboratories or on experimental farms," Professor Spillman declares, "which some farmer somewhere in the United States has not known and used for years. It therefore behooves the scientist who truly desires to help all the farmers of the country to go out among the progressive farmers of every state and mingle intimately with them, gathering here and there from their experiences information which, published, would greatly benefit the whole farming community."

Where a Grizzly Looks Big.

"It is remarkable how enormous a bear will look 'in the free state,'" mused Dr. Joseph A. Holmes, chief of the United States bureau of mines. "I often have strolled through the National Zoological park on Sundays and stopped to admire the magnificent specimens of Alaska grizzly, wondering if such large animals were common in the territory. It seemed that they could hardly be. But an experience in Alaska this summer 'showed me.'"

"One morning, feeling that I should relish some berries, I got some of the members of our party to walk with me a little distance from camp to get them. We had gathered quite a few when we saw at a little distance a she bear, also a berrying, with her two cubs. Scenting us, the cubs, frightened, ran in diverse directions. The mother, alarmed, curled her lip and made for me in a way not conducive to my nervous composure. Not a tree was in sight. And that bear grew—my, how she did grow! Within 100 feet of me she suddenly changed her mind and turned away toward her cubs, much to my relief."

Cartoon Ineffective. The fellow who attempts to cartoon Senator La Follette with a hat on falls down. The Wisconsin man's pompadour hair is too well known to be left out of any picture, especially a cartoon. Hair and whiskers are usually the cartoonists' long suit.

Dixon's Latch String Out. The little labels on the doors of senators in the office building are so small and the letters so indistinct that they can scarcely be deciphered. But Senator Dixon has done a real good thing for those seeking him and other senators might well follow his example. Upon the door of the Montana senator is a large card with bold letters: "Room 429—Senator Dixon—Walk In."

Only \$125,000,000.

Some mathematician has figured out that it will only cost \$125,000,000 to build a highway from the Atlantic to the Pacific. The figures don't have any significance to those who do not know or care what three or more additional ciphers mean after the thousand point is reached, but the question is, Who wants a national highway across the continent, more especially through the long reaches of dry plains and mountains?

A Female King.

JARED Y. SANDERS.

Thirteenth Gun Explodes as Militia Salutes Him.

THIRTEENTH GUN UNLUCKY

Cannon Explodes While Militia Is Saluting Governor.

Shreveport, La., Nov. 1.—When the thirteenth gun was being fired in a salute to Governor Jared Y. Sanders by a detail from the Caddo Rifles the six-inch rifled cannon exploded, seriously wounding Alfred Godfrey, a private in Company L. First regiment, Louisiana national guard.

COURT TAKES CASE UNDER ADVISEMENT

Decision on Tobacco Reorganization Expected Soon.

New York, Nov. 1.—The end has been reached in the arguments which have been made for the last two days before the United States circuit court for and against the plan of dissolution filed by the American Tobacco company. Judges Lacombe, Noyes, Cocks and Ward took the case under advisement. A decree is expected within a few days, determining whether the much discussed plan is in accordance with the decision of the supreme court of the United States, which held the American Tobacco company to be an illegal combination in restraint of trade and ordered that the trust be disintegrated so as to restore competition in the tobacco industry.

Interest in the argument centered chiefly in the attitude of Attorney General Wickersham, who stated that he approved generally of the plan, but at the same time made recommendations which met vigorous protest on the part of the stock and bondholders of the American Tobacco company. Mr. Wickersham insisted that the court, by injunction to prevail from three to five years, reserve to the government the right to appeal to the court at any time it should appear that the dissolution of the trust had not resulted in conditions in harmony with the anti-trust law.

FEW MAY RETAIN SEATS

Nine Men Now on Jury in the McNamara Case.

Los Angeles, Cal., Nov. 1.—Three more talesmen are needed to fill the jury box in the James B. McNamara murder trial before opposing counsel begin exercising their peremptory challenges. Five of the nine accepted, so far as challenge for cause is concerned, have been chosen in a day and a half.

With twenty peremptory challenges at the disposal of the defense and ten in the hands of the state it is considered unlikely that more than three will be on the final jury.

If all the thirty peremptory challenges allowed by law are used, which seems likely, they will empty a full jury box with eighteen left over and after these are exhausted a final twelve men will have to be selected. Impervious to challenge for cause. The completion of a jury therefore is considered a matter of weeks.

SOCIALISTS IN THE LEAD

Candidate for Mayor Has High Vote in Los Angeles Primary.

Los Angeles, Cal., Nov. 1.—Incomplete returns from 225 precincts out of 243 give the following vote for mayor in the municipal primary:

Job Harriman, Socialist, 9,703; George Alexander, Republican Good Government, 9,206.

The same precincts showed that the entire Socialist councilman ticket was running 300 to 500 votes ahead of the Republican Good Government coalition and unattached candidates.

The regular election will be held in December.

Incorrigible.

"Have you laid by anything for a rainy day?" asked the serious friend.

"Yes," replied the frivolous person.

1910 NICKELS GOOD MONEY

Treasury Department Denies Story of Wholesale Counterfeiting.

Washington, Nov. 1.—Hundreds of inquiries from all sections of the country are being received at the treasury department from those persons who have believed recent reports that all nickels dated 1910 are counterfeit. The reports were spread persistently in the West and South and now are being circulated in the East, occasioning banks and business men much inconvenience.

There are 30,000,000 nickels of 1910 in circulation and, so far as the treasury knows, all are genuine. Some of them were discolored in the minting by fumes of sulphuric acid, which gives them an unusual appearance.

HELD AFTER SEVEN DEATHS

Woman's Arrest Follows Recent Death of Chicago Policeman.

Chicago, Nov. 1.—Mrs. Louise Vermilya was taken into custody by the police following their discovery that the recent death of Policeman Arthur Bissonnette, a roomer at her home, was the seventh death in recent years occurring under her roof or under circumstances with which she was connected.

She was taken to a hospital, having become ill when advised by the police her freedom would be curtailed. The seven deaths include those of two husbands, a son, a stepson, a stepdaughter, a conductor who boarded with her and Bissonnette.

HOLIDAY TO HONOR FLEET

New York to Be Decked in Flags for Naval Review.

New York, Nov. 1.—Officially New York will observe Thursday, so far as possible, as a holiday in honor of the presence here of 100 United States warships, the largest assemblage of floating guns and armament ever attempted by the navy. The board of aldermen unanimously adopted a resolution requesting the heads of city departments to allow employees a holiday Thursday, when President Taft reviews the big fleet.

Newspapers are prompting patriotism by urging that the Stars and Stripes be displayed from every available staff in the city.

Yeggs Get \$200 in Stamps.

Winona, Minn., Nov. 1.—Safe lockers made a haul of stamps of over \$200 value from a safe in the general store of W. H. Harrington and the post office at Dakota Village, Winona county. They opened the safe by working the combination and got the stamps.

Chinese Imperial Forces Fail to Retake Hankow.

FIGHTING STILL CONTINUES

General Yin Tchang Succeeds in Capturing Railway Station Immediately North of Hankow—Yuan Shi Kai Starts for the Front and Is Conducting Negotiations for Settlement With Revolutionary Leaders.

Peking, Nov. 1.—Fighting between the rebel forces and the imperialists continues, but it is believed the rebels are making a determined resistance. Late advices received here indicate that Hankow was not retaken by the imperialists, although General Yin Tchang captured the railway station immediately to the north. Contrary to promises, however, the railway service has not been resumed nor has telegraph communication been re-established.

In the meantime there are serious dangers along the railway line between the war minister's position and Peking. Disaffection among the troops and the people has prevented satisfactory communication between the various sections of the loyal army.

Yuan Shi Kai started for the front and now is at Shinyuanchau. Negotiations looking to a settlement have been under way between Yuan Shi Kai and the revolutionary leaders, but the latter have expressed themselves as having little faith in the promises of the throne.

Many Americans are among the foreigners who are seeking refuge here from the interior. There is only one American family at Talyuanfu, which is in the hands of the revolutionaries, but there are many throughout the province of Shansi.

The native press has received the reform edicts favorably. The Chinese, remembering how frequently the promises contained in former edicts were forgotten, may not be satisfied with these, however. The reformers in Peking are divided into two parties, the extremists, mainly Southerners, who insist upon the expulsion of the Manchus, and the moderates, who are numerous throughout the empire and who are indifferent whether the dynasty is Manchu or Chinese, but want great administrative changes.

It is stated in some quarters that Yuan Shi Kai has been appointed premier. It is added that the government intends to accede to every demand made by the Manchus and other disaffected troops and that it is expected that the ministry will resign.

INDICTED ON FIVE COUNTS

Grand Jury Charges Rev. C. V. T. Richeson With Murder.

Boston, Nov. 1.—Rev. Clarence V. T. Richeson, pastor of Immanuel Baptist church, Cambridge, was indicted on five counts charging murder in the first degree by the Suffolk county grand jury for the alleged poisoning on Oct. 14 of his former sweetheart, Miss Alva W. Linnell of Hynannis. The grand jury reported its findings to Judge George A. Sanderson in the superior criminal court after hearing more than thirty witnesses. It is understood that the jurors were unanimous in ordering the indictment.

By the returning of this true bill the necessity of holding a hearing in the municipal court is obviated. The indictment, which is said to be almost unique in the annals of Massachusetts homicides in which poisoning has figured, is of the so called "blanket type," the five counts being so worded as to permit the introduction of evidence by the government as to any of several methods by which the poison may have been conveyed to the dead girl.

TRIAL WITH GLIDER FATAL

California Professor Dashed to Death Before Wife's Eyes.

San Jose, Cal., Nov. 1.—Professor John J. Montgomery, fifty years old, of Santa Clara college, died from the effects of a fall from an aeroplane glider with which he was experimenting near Evergreen. Apparently he lost control of the machine and fell, sustaining injuries to the back and base of the brain.

Mrs. Montgomery was watching her husband in his experimental flights when the tragedy occurred. According to Mrs. Montgomery the machine was about 120 feet from the ground when it fell.

The Halloween dance of the Bohemian club at Elks hall last evening drew a large attendance, as is usually the case in all dances given by this well known organization. Fine music was rendered by George Grewcock and George Putz. The decorations were in keeping with Halloween.

The depot grounds now present a handsome appearance as the new fence has been placed in position. The posts are painted white and the steel tubing black. The old fencing was also removed in the vicinity of the platform and accordingly gives more space to passengers entering or leaving trains.

WARM MEETING AHEAD

City Council's Meeting Monday Evening, November 6, Promises to be Lively

Students of civic affairs say that the next meeting of the city council on Monday evening, November 6, is to be a warm meeting and that in discussions, and reports it is to be of a most pyrotechnical nature.

Nevertheless, when many of the subjects presented are carefully threshed out, a lot of constructive work will be done. Our present council has a record of doing things and many taxpayers attend its sessions.

STOMACH MISERY ENDS

No Indigestion, Gas, Sourness, Heartburn or Dyspepsia Five Minutes After Taking Diapiesin

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some diapiesin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little diapiesin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn sour risings, gas on stomach or bleaching of undigested food, headaches, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapiesin.

Go to your druggist and get a 50-cent case of Pape's Diapiesin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

A Statement of Facts Backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Reckall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Reckall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets 10 cents, 36 tablets 25 cents and 80 tablets 50 cents. GETS SHIPMENT OF ALFALFA SEED

Dr. J. L. Camp Will Introduce the
Innovation of Planting it on His
Farm Near Mission

MEANS MUCH TO THE COUNTY

If the Doctor is Successful it Will
Make Such Land Worth \$100
or More An Acre

Dr. J. L. Camp has just received a
shipment of alfalfa seed from Minne-
apolis and will try the experiment
of seeding six acres of his farm with
it in the spring.

He has had the soil of his Mission
farm examined and believes that a
crop of alfalfa can be matured. It
is an innovation for his farm and at
the same time is an experiment that
will be watched with interest by
every farmer in the county.

Dr. Camp has spent three years try-
ing to get this particular seed, which
is said to be most hardy and suitable
for a climate such as Crow Wing
county possesses. "If it is a suc-
cess," said the doctor, "it will make
that land worth \$100 or more an
acre."

S. E. BRAINERD FIRE

Home of Mrs. Maggie Herrick, 1522
East Laurel Street, Entirely
Destroyed Last Night

While Officer Quinn was making
the rounds in Southeast Brainerd last
night he saw a flash of fire when he
looked north on Fourteenth street in
the neighborhood of the shops and
he ran to the Southeast Brainerd hose
house and rang the bell and called
up Central hose house. The two
story, ten room residence of Mrs.
Maggie Herrick, situated at 1522 E.
Laurel street, was on fire.

Both companies responded and in
the face of a strong wind kept the
fire confined to the building which
had been used as a boarding house.
There were four or more boarders,
firemen and shop men, and they hasti-
ly collected their belongings and ran.
Fanned by the wind the flames
roared and consumed the entire
building so that all the department
could do was to check the spread of
the fire to other buildings.

Sparks and brands flew several
blocks and anxious householders kept
guard of their property. The roof of
a barn two blocks south caught fire
but was speedily extinguished. The
owner, Mrs. Herrick, had just re-
turned from Northwestern hospital,
where she had been sick some time.
The origin of the fire is unknown.
There is some insurance on the house
and contents.

BRAINERD MAN RAISING TREES

Alderman James M. Elder is Improv-
ing His 200 Acre Gull Lake
Farm Near City

PROPAGATING PINE TREES

Site of the Old St. Columbia Mission
is on the Gull Lake Shore Line
of the Farm

On his 200 acre farm on Gull lake,
Alderman James M. Elder is devoting
much time and attention to the prop-
agation of pine trees. A force of men
is keeping the grounds cleared, cut-
ting out undesirable trees and under-
brush, and the result is that the land
resembles a beautiful park.

It is historic land, for one section
near the lake was the site of the old
St. Columbia mission established by
the Episcopal church sixty years ago.
Every precaution is being taken to
guard against forest fires. The
brush cut by the men is burned as
they work through the woods. By
cutting out unnecessary trees it gives
the young pine trees a chance to de-
velop. Other trees are being raised
for cord wood, fence posts, timber,
etc., and at the proper times they are
cut and used for the purposes se-
lected. A timber farm is of slow growth
but when once established it is a
money maker.

A short distance northeast from
the Elder farm is the summer home
and grounds of Fred B. Lynch, of St.
Paul, the democratic national com-
mitteeman of Minnesota. His land
has been much improved. The resi-
dence was formerly a club house
owned by an association of Brainerd
men. A new foundation has been
placed under the building and many
improvements made to its interior.

On the hill is a water tower into
which water is pumped, supplying the
house, grounds and stable. On the
brow of the hill is the caretaker's cot-
tage and Mr. Lynch keeps a man
there the year around. At the foot
of the hill is his power plant, an elec-
tric dynamo furnishing electric light
for the residence and grounds. Im-
mediately north of the Lynch home
is the old watercourse leading from
Round to Gull lake. This is to be
deepened and a channel or canal dug
by the government leading from one
lake to the other, and the culvert
there now is to be replaced with a
good bridge, probably of cement.

It was at the summer home of Mr.
Lynch that the democratic leaders of
the party in this state met and on its
broad veranda it was decided that Mr.
Gray should be the standard bearer.
The political meetings here were at-
tended by Frank A. Day, John King
and other leaders, while opinions on
the local situation were given by
Senator C. D. Johnson.

Across the way from Lynch's is the
home of C. E. Pope, of Pittsburgh,
Penn., who recently bought the land
for a summer residence. Mr. Pope
is interested in mining lands on the
Cuyuna range. He has made many
improvements to his property. It is
at this point that Round and Gull
lakes are but a few feet apart.

Looking in a westerly direction
across the lake one sees the spidery
outline of one of the 40 foot steel
towers which have been erected by
Forest Ranger J. P. Saunders under
instructions from Chief Forester Cox.
These are used as watch towers and
from its height one may scan the hori-
zon for 20 miles around and the
ranger's assistant is thus able to keep
watch on many miles of territory and
extinguish many incipient blazes in

the dry summer time and other peri-
ods of the year.

All about this region the ground
and surroundings are fairly redolent
with the memories of olden times in
the history of Crow Wing county.
Those who have followed the story
told by Mrs. Peake in the Dispatch
can trace here many of the locations
occupied by historic places which she
mentioned. A short distance from
the caretaker's cottage on the Lynch
farm is the spot where the Indians
came upon the German peddler over
50 years ago, assaulted him with
rocks and killed him, burying him
on the shores of the lake.

Away off to the right one may
catch a glimpse of the bridge across
the Long lake narrows leading to
the farm of Anton Mahlum, the scene
of the Indians sugar bush camp in
the early days.

The road to Gull lake is in fairly
good condition. It is very sandy in
places, but by driving and following
in the ruts of the road very good
time can be made by an automobile.
A trip as made by Mr. Elder and his
party, covering Gull lake and parts
of Round and Gull lakes is an inter-
esting diversion and a most pleasant
route to take.

Comrade Peterson, of Round Lake,
sprung a surprise on the old soldiers
at their last regular meeting. When
the chairman announced the subject
of new business under discussion Com-
rade Peterson led the way to a lunch-
eon he had prepared which caught the
eyes of the old veterans.

There was steaming coffee, baked
chicken, mashed potatoes and every-
thing else to make up a capital lunch-
eon and the old boys formed in pla-
toons and at the word from Com-
rade Peterson marched in double
quick time to the scene of action. At-
tacking the chicken on the left flank,
the luncheon redoubts were speedily
reduced. Comrade Peterson received
the thanks of all present for his
pleasant surprise.

GETS SHIPMENT OF ALFALFA SEED

Dr. J. L. Camp Will Introduce the
Innovation of Planting it on His
Farm Near Mission

MEANS MUCH TO THE COUNTY

If the Doctor is Successful it Will
Make Such Land Worth \$100
or More An Acre

Dr. J. L. Camp has just received a
shipment of alfalfa seed from Minne-
apolis and will try the experiment
of seeding six acres of his farm with
it in the spring.

He has had the soil of his Mission
farm examined and believes that a
crop of alfalfa can be matured. It
is an innovation for his farm and at
the same time is an experiment that
will be watched with interest by
every farmer in the county.

Dr. Camp has spent three years try-
ing to get this particular seed, which
is said to be most hardy and suitable
for a climate such as Crow Wing
county possesses. "If it is a suc-
cess," said the doctor, "it will make
that land worth \$100 or more an
acre."

S. E. BRAINERD FIRE

Home of Mrs. Maggie Herrick, 1522
East Laurel Street, Entirely
Destroyed Last Night

While Officer Quinn was making
the rounds in Southeast Brainerd last
night he saw a flash of fire when he
looked north on Fourteenth street in
the neighborhood of the shops and
he ran to the Southeast Brainerd hose
house and rang the bell and called
out Central hose house. The two
story, ten room residence of Mrs.
Maggie Herrick, situated at 1522 E.
Laurel street, was on fire.

Both companies responded and in
the face of a strong wind kept the
fire confined to the building which
had been used as a boarding house.
There were four or more boarders,
firemen and shop men, and they hast-
ily collected their belongings and
ran. Fanned by the wind the flames
roared and consumed the entire
building so that all the department
could do was to check the spread of
the fire to other buildings.

Sparks and brands flew several
blocks and anxious householders kept
guard of their property. The roof of
a barn two blocks south caught fire
but was speedily extinguished. The
owner, Mrs. Herrick, had just re-
turned from Northwestern hospital,
where she had been sick some time.
The origin of the fire is unknown.
There is some insurance on the house
and contents.

BRAINERD MAN RAISING TREES

Alderman James M. Elder is improv-
ing His 200 Acre Gull Lake
Farm Near City

PROPAGATING PINE TREES

Site of the Old St. Columbia Mission
is on the Gull Lake Shore Line
of the Farm

On his 200 acre farm on Gull lake,
Alderman James M. Elder is devoting
much time and attention to the prop-
agation of pine trees. A force of men
is keeping the grounds cleared, cut-
ting out undesirable trees and under-
brush, and the result is that the land
resembles a beautiful park.

It is historic land, for one section
near the lake was the site of the old
St. Columbia mission established by
the Episcopal church sixty years ago.
Every precaution is being taken to
guard against forest fires. The
brush cut by the men is burned as
they work through the woods. By
cutting out unnecessary trees it gives
the young pine trees a chance to de-
velop. Other trees are being raised
for cord wood, fence posts, timber,
etc., and at the proper times they are
cut and used for the purposes select-
ed. A timber farm is of slow growth
but when once established it is a
money maker.

A short distance northeast from
the Elder farm is the summer home
and grounds of Fred B. Lynch, of St.
Paul, the democratic national com-
mitteeman of Minnesota. His land
has been much improved. The resi-
dence was formerly a club house
owned by an association of Brainerd
men. A new foundation has been
placed under the building and many
improvements made to its interior.

On the hill is a water tower into
which water is pumped, supplying the
house, grounds and stable. On the
brow of the hill is the caretaker's cot-
tage and Mr. Lynch keeps a man
there the year around. At the foot
of the hill is his power plant, an elec-
tric dynamo furnishing electric light
for the residence and grounds. Im-
mediately north of the Lynch home
is the old watercourse leading from
Round to Gull lake. This is to be
deepened and a channel or canal dug
by the government leading from one
lake to the other, and the culvert
there now is to be replaced with a
good bridge, probably of cement.

It was at the summer home of Mr.
Lynch that the democratic leaders of
the party in this state met and on its
broad veranda it was decided that Mr.
Gray should be the standard bearer.
The political meetings here were at-
tended by Frank A. Day, John King
and other leaders, while opinions on
the local situation were given by
Senator C. D. Johnson.

Across the way from Lynch's is the
home of C. E. Pope, of Pittsburgh,
Penn., who recently bought the land
for a summer residence. Mr. Pope
is interested in mining lands on the
Cuyuna range. He has made many
improvements to his property. It is
at this point that Round and Gull
lakes are but a few feet apart.

Looking in a westerly direction
across the lake one sees the spidery
outline of one of the 40 foot steel
towers which have been erected by
Forest Ranger J. P. Saunders under
instructions from Chief Forester Cox.

HUNTING LICENSES HERE

Will be Issued Nov. 7, Three Days
Before the Deer and Moose
Season Opens

Big game licenses for 1911 have
been received from the state auditor
by County Auditor J. F. Smart. Pre-
parations are being made to hand them
out on the morning of November 7,
when applicants may secure their li-
censes.

This year the new law goes into
effect which makes it necessary to
get a separate license for big game,
heretofore one license being sufficient
for both big and small game. These
licenses, which will be issued to the
residents of this county, will not be
available until November 7, as the
law reads that they cannot be is-
sued until three days before the sea-
son opens.

This provision is intended to pre-
vent "sooners" from getting a chance
at the deer and moose before the sea-
son opens. This year the hunter is
entitled to only one moose and one
deer. The license is provided with
two sets of tags. One tag is to be
attached to the deer or moose when
shipping it and the other is to be sent
by the hunter to the state game and
fish commission. In this way the
commission hopes to gain an idea of
the deer killed this season. The sea-
son opens November 10 and closes
December 1. The license will cost
the hunter \$1 and must be purchased
for hunting outside of the county in
which the hunter resides.

IMPROVEMENT WITHIN TWENTY-FOUR HOURS

"At five months our baby weighed
thirteen pounds, while at eight months
she weighed only twelve. We fed
condensed milk and different kinds of foods
and still the child got worse. One doc-
tor said she could not be helped; two
others gave me very little encouragement.
At last I procured a bottle of Mellin's
Food and fed it to her according to direc-
tions. She showed an improvement
within twenty-four hours after the first
feeding and has not been sick a day since.
In the three months I have used Mellin's
Food the baby has gained six pounds."

1912 BUICK 1912

In making our 1912 announcement we do so with the assurance that we have something to offer the automobile buying public far in excess of anything ever offered before for the same amount of money or anywhere near it. The BUICK cars for 1912 will be the greatest product emanating from the best that brains and money can produce. ENGINEERS THE WORLD OVER have conceded that the valve in the head type motor is coming to the front by leaps and bounds, simply on account of its POWER, SPEED, SIMPLICITY and DURABILITY.

THE 1912 FEATURES ARE MANY

There are many special features on the 1912 line which go as regular equipment, and which will make even the fellow who is looking for a lot for his money sit up and take notice—such as BAKER DEMOUNTABLE RIMS, ALL BRASS PARTS NICKLED, HIGH GRADE MOHAIR TOPS, WIND SHIELDS, INVISIBLE SHIFTING GEAR AND EMERGENCY BRAKE LEVERS, SPARK PLUGS ON 45 DEGREE ANGLE, LARGE STEERING WHEELS, NICKLE STEEL SHAFTS AND GEARS, QUIET RUNNING MOTORS, LOW CENTER OF GRAVITY AND HIGH CLEARANCE, AND A FINISH IN WHICH YOU CAN SEE YOURSELF—Improvements that are reflected in the following models:

A SNAPPY, POWERFUL HIGH GRADE ROADSTER	\$850
A HANDSOME, FOREDOOR TOURING CAR	\$1000
A SPECIAL ROADSTER, FULLY EQUIPPED WITH TOP, GLASS FRONT, LIGHT TANK, AND DEMOUNTABLE RIMS	\$1075
A FIVE PASSENGER TOURING CAR, FULLY EQUIPPED	\$1250
A SUPREME MODEL TOURING CAR, FULLY EQUIPPED	\$1850

ALL CARS FOR 1912 HAVE SLIDING GEAR TRANSMISSION

Every BUICK car for 1912 will represent in its construction absolutely every tried and successful feature tending toward the one idea, that of successful performance for the user under any condition of usage in any section of the world. All the speed and power for which the name Buick is famous has been retained; cars are absolutely noiseless, and in detail of finish and equipment are the equal of any car on the market, regardless of price.

HUNTING LICENSES HERE

Will be Issued Nov. 7, Three Days Before the Deer and Moose Season Opens

Big game licenses for 1911 have been received from the state auditor by County Auditor J. F. Smart. Preparations are being made to hand them out on the morning of November 7, when applicants may secure their licenses.

This year the new law goes into effect which makes it necessary to get a separate license for big game, heretofore one license being sufficient for both big and small game. These licenses, which will be issued to the residents of this county, will not be available until November 7, as the law reads that they cannot be issued until three days before the season opens.

This provision is intended to prevent "sooners" from getting a chance at the deer and moose before the season opens. This year the hunter is entitled to only one moose and one deer. The license is provided with two sets of tags. One tag is to be attached to the deer or moose when shipping it and the other is to be sent by the hunter to the state game and fish commission. In this way the commission hopes to gain an idea of the deer killed this season. The season opens November 10 and closes December 1. The license will cost the hunter \$1 and must be purchased for hunting outside of the county in which the hunter resides.

A POPULAR VERDICT

Based on Evidence of Brainerd People Grateful thousands tell it—How weak backs were made strong Weak kidneys made well—Urinary disorders corrected. Brainerd people add their testimony.

They gladly praise Doan's Kidney Pills. For quick relief and lasting cures. Brainerd evidence is now complete. Brainerd testimony is confirmed. Reports of early relief substantiated.

Cures doubly proved by test of time Let a Brainerd citizen speak.

Mrs. H. Langslow, 409 Ninth St., Brainerd, Minn., says: "We have used Doan's Kidney Pills in our family and have found them very effective in relieving pain and lameness across the loins and trouble with the kidney secretions. In 1908 a member of my family procured a supply of a local drug store and was relieved of an attack of lumbago that had resisted other remedies. We publicly endorsed Doan's Kidney Pills at that time and are now willing to confirm our former statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
